Range of Provision and inclusion information:	
How we identify special educational learning needs as a school and how we seek the views, opinions and voice of pupils and their parents in planning to meet them.	<ul style="list-style-type: none"> <li>When pupils have identified SEND before they start here, we work with the people who already know them and use the information they already have available to manage the particular needs within a mainstream setting</li> <li>If you tell us you think your child has SEN, we will discuss this with you and investigate. We will share with you what we find out and agree next steps with you as to how we can all help your child. We follow the Graduated Approach carefully, ensuring the 'assess, plan do and review' stages are implemented.</li> <li>If your child does not appear to be making the same level of progress, whether academic, social or emotional, as other children of their age, we will undertake assessment in school and if appropriate, consult outside agencies, to identify possible barriers to their learning. Parents and carers will be involved at all stages.</li> </ul>
