

## Beechwood School Accessibility Plan - 2022-2025

	Targets	Strategies	Outcome	Time Frame	When Achieved
<b>Short Term</b>	<u>Ensure children are safe within the school building</u>	Install a FOB system to Lewis Carroll class Install a FOB system to the front entrance  Install a FOB system to the middle doors	Children in crisis will not be able to leave their classroom Children in crisis will not be able to move through the school disrupting the learning of others Children in crisis will not be able to leave the school	Nov 2022   Dec 2022	Achieved
<b>Medium Term</b>	<u>Ensure safer access to school grounds.</u>   <u>Consider T-Loop system</u>	Audit shows that having sloped access to all external doors would cause some problems with the outdoor play areas, therefore to overcome this we will look at purchasing a ramp/a couple of ramps that can be moved to the area of the school needed to ensure that all can access the outdoor areas safely  Through connecting classrooms we will be looking at improvements to WiFi through the school, as part of this we will see if T-Loop can be added	Persons with compromised mobility have easier and safer access.   Should we have children with hearing impairment they will be able to link into the system to hear the class teachers	July 2024   July 2024	
<b>Long Term</b>	<u>Consider personal equipment e.g. writing slopes (where appropriate) for children with additional learning needs.</u>	Seek funding to help purchases	Equal access to the curriculum.	Ongoing until July 2025
