Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Beechwood Primary School
Number of pupils in school	162(9/21) 157(9/22)
Proportion (%) of pupil premium eligible pupils	Sept 22: 20% Sept 21 15% Oct 20 16%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2021-2022 2022-2023 2023-2024
Date this statement was published	Sept 21
Date on which it will be reviewed	Sept 22 Sept 24
Statement authorised by	
Pupil premium lead	Mrs Steph Kidd
Governor / Trustee lead	

Funding overview

Detail 21/22	Amount
Pupil premium funding allocation this (21/22) academic year	£34,970
Service child Premium (21/22)	£300
LAC/Post LAC premium (21/22)	£2,345
Recovery premium funding allocation this academic year (21/22)	£3,770
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year	£41,085 (21/22)

If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	
Detail 22/23	Amount
Pupil premium funding allocation this (22/23) academic year	£41,695
Service child Premium	£300
LAC/Post LAC premium	£4,690
Recovery premium funding allocation this academic year	£2523
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year	£49,208 (22/23)
If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	

Part A: Pupil premium strategy plan

Statement of intent

When making decisions about using Pupil Premium funding it is important to consider the context of the school and the subsequent challenges faced. Research conducted by EEF should then be used to support decisions around the usefulness of different strategies and their value for money.

Common barriers to learning for disadvantaged children, can be less support at home, weak language and communication skills, lack of confidence, more frequent behaviour difficulties and attendance and punctuality issues. There may also be complex family situations that prevent children from flourishing. The challenges are varied and there is no "one size fits all".

Our ultimate objectives are:

- To narrow the attainment gap between disadvantaged and non-disadvantaged pupils.
- For all disadvantaged pupils in school to make or exceed nationally expected progress rates.
- To support our children's health and wellbeing to enable them to access learning at an appropriate level.

We aim to do this through

- Ensuring that teaching and learning opportunities meet the needs of all the pupils
- Ensuring that appropriate provision is made for pupils who belong to vulnerable groups, this includes ensuring that the needs of socially disadvantaged pupils are adequately assessed and addressed
- When making provision for socially disadvantaged pupils, we recognise that not all pupils who receive free school meals will be socially disadvantaged
- We also recognise that not all pupils who are socially disadvantaged are registered or qualify for free school meals. We reserve the right to allocate the Pupil Premium funding to support any pupil or groups of pupils the school has legitimately identified as being socially disadvantaged.
- Pupil premium funding will be allocated following a needs analysis which will identify priority classes, groups or individuals. Limited funding and resources means that not all children receiving free school meals will be in receipt of pupil premium interventions at one time.

Achieving these objectives:

The range of provision the Governors consider making for this group include:

- Ensuring all teaching is good or better thus ensuring that the quality of teaching experienced by all children is improved.
- Reducing class sizes thus improving opportunities for effective teaching and accelerating progress
- To allocate 'Catch Up' Enhanced Teaching providing small group work focussed on overcoming gaps in learning
- 1-1 support
- Additional wellbeing support provided through trained ELSA's or external agencies
- All our work through the pupil premium will be aimed at accelerating progress, moving children to at least age-related expectations.
- Pupil premium resources are to be used to target able children on Free School Meals to achieve at least Age Related Expectations
- Additional learning support.
- Support payment for activities, educational visits and residentials. Ensuring children have first-hand experiences to use in their learning in the classroom.
- Behaviour support

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Poor parental engagement in Reading for some
2	Narrowing the progress gap across Phonics, Reading and Writing
3	Attainment gap in children in Phonics, Reading, Writing and Maths
4	Attendance and Punctuality issues for some
5	Emotional/wellbeing needs within some of our children
6	Enabling all children first hand experiences

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improve parental engagement	Children will be supported at home as well as in school
Progress in Reading	Achieve national average progress scores in KS2 Reading

Progress in Writing	Achieve national average progress scores in KS2 Writing	
Progress in Mathematics	Achieve national average progress scores in KS2 Maths	
Attainment in Reading	Achieve national average for ARE and GD in Reading	
Attainment in Writing	Achieve national average for ARE and GD in Writing	
Attainment in Maths	Achieve national average for ARE and GD in Maths	
Improve attendance and punctuality	Attendance of disadvantaged children will move to inline with attendance for all children (overall % attendance for PP children was impacted last year due to some children with EHCP/SW not taking up their place offered during lock down) Punctuality of disadvantaged children will move to inline with punctuality for all children	
Improve the children's emotional/wellbeing needs	Children's emotional/wellbeing needs will be met	
Ensure all children are able to take part in first hand learning experiences	No child will miss out on trips and Residential visits due to cost Gifted and talented musicians will be able to receive 1:1/small group tuition	

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £10,832

Activity	Evidence that supports this approach	Challenge number(s) addressed
Some PP funding will contribute towards a teacher appointed to work within Year 4 cohort in the mornings to allow Year 3, Year 4 and Year 5 cohorts to	EEF(+2) As the size of a class or teaching group gets smaller it is suggested that the range of approaches a teacher can employ and the amount of attention each student will receive	2,3

be taught as three small classes.	 will increase, improving outcomes for pupils. We have analysed the needs of our Key Stage 2 cohorts and have identified that 3 small classes under 25 children would allow teachers to increase the amount of attention each child will receive. It will mean that more children can receive small group teacher led sessions throughout the lessons 	
Revisit Kagan Structures for learning with staff to boost collaboration	EEF (+5) Collaborative learning approaches have a positive impact, on average, and may be a cost-effective approach for raising attainment.	2,3
Revisit thinking tools with staff with a focus on metacognition	 EEF (+7) Metacognition and self-regulation approaches to teaching support pupils to think about their own learning more explicitly, often by teaching them specific strategies for planning, monitoring, and evaluating their learning. Interventions are usually designed to give pupils a repertoire of strategies to choose from and the skills to select the most suitable strategy for a given learning task. Self-regulated learning can be broken into three essential components: cognition – the mental process involved in knowing, understanding, and learning metacognition – often defined as 'learning to learn'; and motivation – willingness to engage our metacognitive and cognitive skills. 	2,3

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £20,628

Activity	Evidence that supports this approach	Challenge number(s) addressed
Tutoring	EEF (+4)	2,3

	Small group tuition is defined as one teacher or professional educator work- ing with two to five pupils together in a group. This arrangement enables the teacher to focus exclusively on a small number of learners, usually in a sepa- rate classroom or working area. Inten- sive tuition in small groups is often pro- vided to support lower attaining learn-	
	ers or those who are falling behind, but it can also be used as a more general strategy to ensure effective progress, or to teach challenging topics or skills. EEF (+5) On average, one to one tuition is very effective at improving pupil outcomes. One to one tuition might be an effective	
	strategy for providing targeted support for pupils that are identified as having low prior attainment or are struggling in particular areas Having analysed our cohorts we have identified that small groups of 3 children would work best, with some children receiving 1:1 tuition or 1:2 depending upon need. Initially KS1 will focus on phonics and the majority of KS2 will focus on reading. However the groups will be based on need of the children and will change to different elements of English throughout the 15 week blocks if needed.	
Focused small group intervention	EEF (+4) Small group tuition is defined as one teacher or professional educator work- ing with two to five pupils together in a group. This arrangement enables the teacher to focus exclusively on a small number of learners, usually in a sepa- rate classroom or working area. Inten- sive tuition in small groups is often pro- vided to support lower attaining learn- ers or those who are falling behind, but it can also be used as a more general	2,3

strategy to ensure effective progress, or to teach challenging topics or skills. EEF (+5) On average, one to one tuition is very effective at improving pupil outcomes. One to one tuition might be an effective	
strategy for providing targeted support for pupils that are identified as having low prior attainment or are struggling in particular areas	
Small group intervention given at the point of need in Reading (including phonics), writing and maths. This varies, at times it will be pre-teaching used and at other times catch up intervention.	

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £18,748

Activity	Evidence that supports this approach	Challenge number(s) addressed
ELSA worker to support children who are having difficulty accessing learning through emotional/wellbeing issues, using the ELSA approach to support their management of their own needs. TA L5 Enhanced	EEF (+4) Social and Emotional Learning – interventions which target social and emotional learning seek to improve pupil's interaction with others and self management of emotions, rather than focusing directly on the academic or cognitive elements of learning. SEL interventions might focus on the ways in which students work with (and alongside) their peers, teachers, family and community. These include: specialised programmes which are targeted at students with particular social or emotional needs.	5
Subject leader release time to deliver parental workshops Staff release time to support families and engage them in their child's learning	EEF (+4) We define parental engagement as the involvement of parents in supporting their children's academic learning. It includes:	1

More activities bringing families into school to celebrate and share learning	 approaches and programmes which aim to develop parental skills such as literacy or IT skills; general approaches which en- courage parents to support their children with, for example read- ing or homework; the involvement of parents in their children's learning activi- ties; and more intensive programmes for families in crisis. 	
Use some funding to ensure that all children have first hand experiences	 EEF (+3) Overall, the average impact of arts participation on other areas of academic learning appears to be positive but moderate, about an additional three months progress. Improved outcomes have been identified in English, mathematics and science. Benefits have been found in both primary and secondary schools. Some arts activities have been linked with improvements in specific outcomes. For example, there is some evidence of the impact of drama on writing and potential link between music and spatial awareness. Wider benefits such as more positive attitudes to learning and increased wellbeing have also consistently been reported. EEF (0) 	6
Ensuring that all children have the opportunity to take part	Outdoor Adventure Learning might provide opportunities for disadvantaged pupils to participate in activities that	

Residential visitscess. Through participation in these challenging physical and emotional ac- tivities, outdoor adventure learning in- terventions can support pupils to de- velop non-cognitive skills such as resili- ence, self-confidence and motivation.The application of these non-cognitive skills in the classroom may in turn have a positive effect on academic outcomes. However, the evidence base linking			
non-cognitive skills and pupil attain- ment is weak and schools should there- fore carefully evaluate the impact of outdoor learning interventions on pupil achievement, if this is the intended out- come. Whilst it may not impact upon academic ability, using funding to ensure that all children can access visits and residential trips does overcome social boundaries and enhances cultural capital for all of our children. It also gives the children a sense of belonging which is very important	in educational visits and Residential visits	 cess. Through participation in these challenging physical and emotional ac- tivities, outdoor adventure learning in- terventions can support pupils to de- velop non-cognitive skills such as resili- ence, self-confidence and motivation. The application of these non-cognitive skills in the classroom may in turn have a positive effect on academic outcomes. However, the evidence base linking non-cognitive skills and pupil attain- ment is weak and schools should there- fore carefully evaluate the impact of outdoor learning interventions on pupil achievement, if this is the intended out- come. Whilst it may not impact upon academic ability, using funding to ensure that all children can access visits and residential trips does overcome social boundaries and enhances cultural capital for all of our children. It also gives the children a sense of belonging 	

Total budgeted cost: £ 49,208

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year.

<u>Progress</u>

KS2 Reading progress is above national at +2.6 PP average progress = +3.7

KS2 Writing progress is above national at +1.3 PP average progress = +9.9

KS2 Maths progress is above national at +1.5 PP average progress = +5.9

Attainment KS2 Expected Standard

KS2 Reading above national at 83%, PP 50% below national 50% at national

KS2 Writing above national at 83%, PP 100% at national

KS2 Maths above national at 83%, PP 50% below national 50% at national

KS2 RWM above national at 75%, PP 50% below national 50% at national

Attainment KS2 Greater Depth

KS2 Reading above national at 48%, PP 0% GD

KS2 Writing inline with national at 13%, PP 0% GD

KS2 Maths above national at 38%, PP 0% GD

KS2 RWM inline national at 4%, PP 0% GD

<u>Attendance</u>

<u>Wellbeing</u>

All children had their well-being needs met

First Hand Experiences

All children attended events with PP money used to pay for Residential Trips and other items to ensure that no child missed out on the valuable first hand experiences

Externally provided programmes

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England

Programme	Provider
Talk for Writing	Talk for Writing
Reading for fluency	
Inference and deduction	

Service pupil premium funding (optional)

For schools that receive this funding, you may wish to provide the following information:

Measure	Details
How did you spend your service pupil premium allocation last academic year?	Ensuring that the wellbeing needs of children were met and that they settled smoothly into life at school
What was the impact of that spending on service pupil premium eligible pupils?	Happy settled children who are ready to learn

Further information (optional)

Use this space to provide any further information about your pupil premium strategy. For example, about your strategy planning, or other activity that you are implementing to support disadvantaged pupils, that is not dependent on pupil premium or recovery premium funding.
